A6 Envelope 4.75x6.5

NOTE: solid red diagram shows the outside of the envelope, dashed line shows the flap. Copy and graphics need to fit within the green box. If you are printing on the flap the copy and graphics should rotate 180° (ie. view upside down) so when it folds everything reads correctly. ** Check with your CSR rep before you place copy on the flap, some envelopes have different flap configurations.

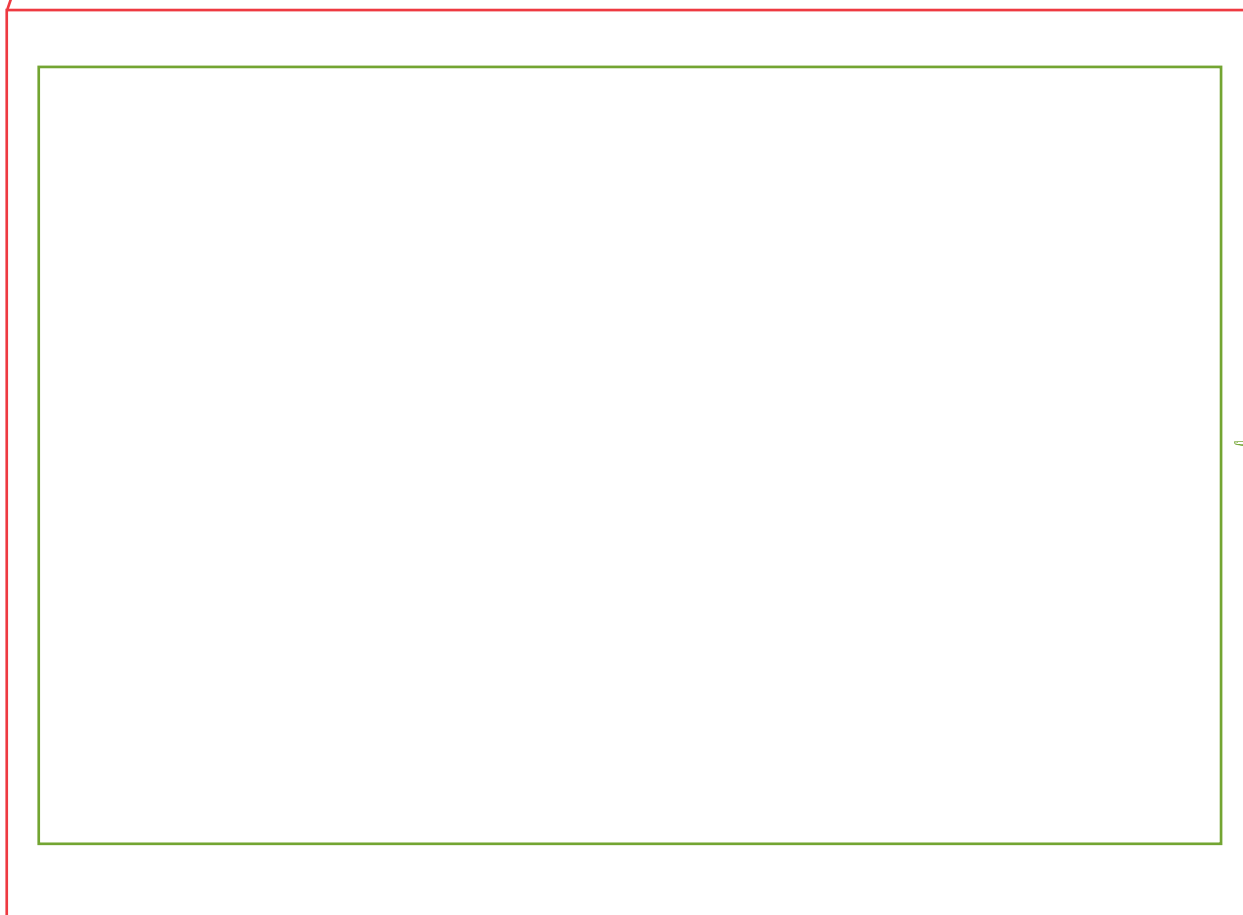

A6 Envelope with copy printing on Flap

Flap 1.25
